Subject: Re: Fw: Final statistical significance of difference from neg control of bioassay data
Date: 06/22/2009 02:49 PM

Eric,
The new spreadsheet sent by John Toll appears to be missing the statistical significance results for Chironomids from stations G785a, G786a, G787a, and G788a. These results are shown in the new file for the Hyalella tests.
thanks,
Jay

Subject FW: Final statistical significance of difference from neg control of bioassay data

Hi Eric. As requested here are the results of the statistical significance testing, extracted from the workbook we originally sent you on 9/9/08. John
